

## Portable Pressurized and On-Site Eyewashes

### On-Site Heater Jacket Retrofit Kit

- **S19-921HR (pedestal not included)**
  - Protects against freezing down to -20°F (-29°C)
  - Insulated heater jacket conceals a 121-watt heater
  - Secondary thermostat prevents overheating if primary thermostat fails
  - All UL-listed components; requires 120-volt AC

### On-Site Waste Cart

- **S19-399**
  - High-visibility yellow
  - Captures used fluid; 56-gallon capacity
  - Tapered sump, easy to drain

### Heater Jacket Retrofit Kits for Portable Pressurized Eyewash Tanks

Thermostatically controls water in weather conditions down to -10°F (-23°C); uses standard 120 VAC. Tanks not included

- **S19-671HR (shown at right)**  
Heater jacket retrofit kit for 5-gallon tank
- **S19-690HR (shown at left)**  
Heater jacket retrofit kit for 10-gallon tank
- **S19-788HR (shown at center)**  
Heater jacket retrofit kit for 15-gallon tank

### Transport Cart for Pressurized Eyewash Tanks

- **S19-690A**  
Four-wheel stainless steel transport cart. For use with eyewash tanks without heater jackets (eyewash tanks not included)

## Drench Hose Spray Kits

- **S19-430EH**  
Drench hose spray kit with valve, drench hose sprayhead, hose, inspection tag and hardware. For use with eyewashes; provides a body water drench

- **S19-430SH**  
Drench hose spray kit with valve, drench hose sprayhead, hose, inspection tag and hardware. For use with drench showers; provides a body water drench

## Flow Switch Alarm Systems

- Automatic, audible and visual alarm system
- Activates when unit is in use; preassembled
- Basic alarm meets NEMA 3 code (waterproof)
- Requires minimum of 2 GPM water flow to activate
- 1¼" NPT inlet piping

### Standard Alarms for Drench Showers or Combination Units

- S19-320**  
Shower/combination alarm with 6' cord (120 volt)
- S19-320B**  
Shower/combination alarm with 6' cord and 120/24V AC transformer
- S19-320C**  
Shower/combination alarm with 12' cord (120 volt)
- S19-320E**  
Shower/combination alarm with 12' cord and 120/24V AC transformer

### Explosion-Proof Class 1 Division 1 Alarm Systems

- S19-320EXP1A**  
Shower/combination alarm (120 volt) rated Class 1; Division 1; Groups C and D explosion proof
- S19-320EXP1B**  
Shower/combination alarm (220 volt) rated Class 1; Division 1; Groups C and D explosion proof

### Explosion-Proof Class 1 Division 2 Alarm Systems

- S19-320EXP120**  
Shower/combination alarm (120 volt) rated Class 1; Division 2; Groups B, C, and D explosion proof
- S19-320EXP220**  
Shower/combination alarm (220 volt) rated Class 1; Division 2; Groups B, C, and D explosion proof

### Alarms for Eye or Eye/Face Washes

- S19-320A**  
½" NPT with 6' cord
- S19-320D**  
½" NPT with 12' cord

## Shower Accessories

### Privacy Curtain

- **S19-330**
  - Provides privacy to shower user in emergency situations
  - Universal mounting
  - 3-ply, vinyl laminate, curtain reinforced at top and bottom
  - Chemical and mildew resistant; waterproof
  - High-visibility yellow color
  - Dimensions: 70"L x 145"W
  - Stainless steel, corrosion resistant curtain rail and mounting brackets
  - Rail dimensions: 1½" x 42" diameter
  - Not compatible with barrier-free, PVC and heat trace units – contact Bradley for more information

### Drench Shower Tester

- **S19-330ST**
  - Heavy-duty tester for required weekly activation
  - Watertight funnel with weighted bottom
  - 84" long with 8' telescoping aluminum handle
  - Includes testing record card

## Classic Accessories

### Retrofit Classic Dust Covers

- **S45-1964**  
For use with any Bradley plastic eyewash bowl. Plastic bowl, dust cover, gasket and hardware

- **S45-2396**  
For use with any Bradley eyewash bowl. Stainless steel "clam shell" cover and bowl, stainless steel handle, tether and quick release pin
